

Construction at Teignmouth Community School

Sixth Form induction day task

Career's in construction

The Students will look at different career paths within the construction industry. What type of career do you want to follow in the future? This will help them start Unit 12: The Construction Industry

Students will look at:

- Different job opportunities
- The difference between craft, technical and management jobs
- Revise current CV to make them relevant
- Practice filling in job applications.

On completion of the task the students will have a better understanding of how extensive the construction industry is and ways of getting started. This will give them a good start for the autumn term to be able to complete Unit 12: The Construction Industry.

Work to be completed over the summer break.

1. Up to date CV
2. Completed job application form
3. Cover letter to go with job application form
4. Develop answers to potential questions in preparation for an interview (at least 10 questions and answers).
